NAD Educator Toolkit Dashboard & SIS Support

- There are several **updates** for this year's **Data Rollup**. Please be sure that your schools are aware of the new requirements.
- The **2016-17 User Guide to the Dashboard** is ready for you to review with your educators! ALL educators benefit when they understand how the different Apps in the Dashboard can benefit them.
   - Please take the time to see what content is available in **Data Rollup**. Teachers and administrators will find useful reports.

- o Be sure to explore the **Files** section and see the great resources there - only available to NAD educators.
- o Check certification out via the **eCertification** app.
- o Be sure to look at the 2016-17 NAD Report Cards **here**. Grade marks and skill codes MUST match what is displayed on these report cards. *Report card site will be available by August 1.*
- RenWeb users will benefit from two new resources:
  - o After-hours RenWeb support option. Log into RenWeb University using your RenWeb login information (**rwu.renweb.com**). Click on Support Chat on the right side of the page; there you can leave a message (select NAD-SDA as your category) for the NAD support team and they will e-mail you back with answers when they are back in the office. This is a great tool for teachers who are only free in the evenings to work on Data Rollup/RenWeb issues - by leaving a message, they will reply to you with an e-mail rather than calling you during school hours.
  - o All SDA Information for RenWeb is found on a customized landing page.
    - **Renweb SDA Reporting and Dashboard Errors**
